

NEIL ARMSTRONG

Explorer (1930 - 2012)

Armstrong was an aerospace engineer, a naval aviator, and the first person to walk on the Moon. On July 20, 1969 Apollo 11 became the first manned mission to land on the Moon. Armstrong and his crewmate, Lunar Module pilot Buzz Aldrin, spent 2 1/2 hours outside their spacecraft exploring the lunar surface. As he stepped out of the Lunar Module, Armstrong said his most famous words, "That's one small step for man, one giant leap for mankind."
